UI/UX Designer with 3+ years driving UX strategy, research, and end-to-end design for web, mobile, and enterprise systems. Skilled at turning complex business requirements into user-centered digital experiences through rapid prototyping and close collaboration with engineers and product managers. Independently led a 0-to-1 digital transformation for a mid-sized traditional organization, achieving 52% digital adoption across 9,200+ users.

Education

National Taiwan University of Science and Technology (NTUST)

Master of Design, Department of Design

Taipei, Taiwan

Feb 2024 – Feb 2026

- Overall GPA: 4.11/4.30
- Thesis: Applying AI-Assisted Service Design to the Digital Transformation of Religious Services: A Case Study of a Taoist Temple 🔗

Taipei National University of the Arts (TNUA)

Bachelor of Fine Arts in Animation

Taipei, Taiwan

Sep 2016 – Jul 2020

- Overall GPA: 4.00/4.30

Work Experience

UX Researcher & Lab Manager

Design Innovation and Thinking Lab, NTUST

Taipei, Taiwan

Feb 2024 – Jun 2026

- Served as the team's sole UX designer and product lead, working alongside one engineer, to conduct stakeholder research and lead end-to-end design across the organization's service workflows.
- Delivered a redesigned digital system now serving 9,200+ users, replacing manual, paper-based processes with a streamlined digital workflow.
- Led UX research across 4 projects, conducting stakeholder interviews, synthesizing user insights, and translating findings into product requirements and design recommendations.
- Coordinated with faculty and 10+ lab members to optimize research schedules, improve project efficiency, and align research priorities.

UI/UX Designer

Steps Software Inc.

New Taipei, Taiwan

May 2022 – Dec 2023

- Redesigned the app and admin backend products to unify interaction logic and simplify user flows, and developed key front-end screens that received high usability ratings.
- Created a 3-template web design product line, handling content strategy, visual design, and templating; this helped secure 3+ new contracts.
- Delivered UI/UX design for 10+ projects, enhancing usability and user satisfaction across client-facing websites, management systems, and mobile apps, resulting in improved workflow efficiency.
- Owned a university venue-booking website end-to-end; independently acquired HTML/CSS and Bootstrap skills to deliver an accessible site to the client, reducing manual venue reservation processing time.

Graphic Designer

Dianjing Image Multimedia Co., Ltd.

Taipei, Taiwan

Jun 2021 – Jan 2022

Chuan Hwa International Education Co., Ltd.

Aug 2020 – May 2021

- Designed illustrations, motion graphics, and campaign visuals for 10+ projects, including exhibitions, public displays, educational programs, and camps, enhancing consistent visual communication across all audience-facing initiatives.

Featured Project

Temple Service Digital Transformation

Product Manager, UI/UX Designer

Yilan, Taiwan

Feb 2024 – Jun 2026

- Conducted the organization's first systematic service audit through 17 stakeholder interviews and end-to-end journey mapping, informing a redesign that consolidated 18 manual process nodes into 6 (a 66.7% reduction in touchpoints).
- 52.2% digital replacement rate (paper to digital) across 9,200+ users, with 6,100+ online service registrations; cut single-record processing time from 1 week to under 5 minutes; improved user satisfaction by 10% (4.0/5 to 4.4/5).
- Drove NT\$10M+ in accumulated transaction volume through the platform, demonstrating its ability to handle high-value operations at scale.
- Validated the Minimum Viable Architecture (MVA) by launching a new digital module for a major annual event, reversing a three-year revenue decline and driving 69.8% YoY growth.
